GROWERS OF PLANTS
FOR THE TRADE

WHITE MARSH,

MARYLAND

SPRING—1921

TO OUR PATRONS

To Be Read Before Ordering

Non Warranty

We wish it to be distinctly understood that, while we take every precaution to have all plants and bulbs true to name, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter, of any of the plants or bulbs we send out, and will not in any way be responsible for the crop. Every order we receive will be executed on these conditions only, and they must be accepted by the customer when ordering.

We aim to get new customers and keep old ones, and by honorable dealing to satisfy both customer and ourselves.

Reservation of Plants for Future Shipment

While we try as far as possible to reserve plants on orders placed in advance for future shipment, it must be borne in mind that plants are perishable and cannot always be held in stock like other merchandise.

Weather conditions frequently make such reservations impossible, as much as we would desire to do so. Customers may rely on us doing our utmost to fill all orders placed in advance, but if we fail we assume no responsibility, and advance orders are accepted on these conditions only.

Safe Arrival Guaranteed

We guarantee the safe arrival of all goods sent by mail or express to points within the United States. If packages sent by mail or express are lost, we replace them as soon as we are informed of the fact. All claims for damages must be made on receipt of goods.

We do not hold ourselves responsible for failure after goods are delivered in good condition.

Plants Delivered Free

All plants offered in this catalog at single and dozen rates will be delivered free except large Ferns and Palms, and other large orders which, by their nature, must be sent by express, when they will be sent express collect; that is, the customer will pay express charges. Part of the soil will be removed from all parcel post and prepaid express orders.

Cash With Order

Please send remittance sufficient to cover entire order. We decline to send goods "Collect on Delivery." If order cannot be filled all money will be returned. We make no charge for packing and delivering to express or post-office.

R. VINCENT, Jr. & SONS CO.

FERNS

These beautiful and graceful plants now occupy first place among decorative plants. They are unsurpassed for either parlor or conservatory decoration, and nothing gives a touch of refinement to a porch or sun parlor that a well finished Fern does. The *Nephrolepis* family, of which the well-known Boston and its descendants are members, are of a strong, healthy nature and succeed well under ordinary care. Fine exhibition specimens can be grown in the home.

BOSTON—*Nephrolepis Exaltate Bostoniensis*, is a rapid grower of easy culture, soon forming fine graceful plants, its beautiful broad fronds often obtain length of five feet, they droop gracefully, completely hiding the pot or jardiniere. No plant ever introduced has had a larger sale or held its position in popular favor like the Boston fern.

4-inch \$0.50 5-inch \$1.00 6-inch \$1.50
Large specimens 8- and 10-inch \$10.00
to \$15.00 each.

SCOTTII—The fronds are broad and beautifully tapered from base to tip. They droop just enough to make a shapely graceful plant and to finish with a nice full centre. It is such a compact vigorous grower that it thrives well under rather adverse conditions, producing a plant of rare beauty and perfection, indispensable for dining-room or library, or places in the home where room is somewhat limited.

4-inch \$0.50 5-inch \$1.00 6-inch \$1.50
Large specimens from \$5.00 to \$10.00 each

CORDETTA COMPACTA—This is better known as the sword plant, its fronds are rather more narrow than the *Scottii* and stand erect more than drooping. They are dark holly green and have the strongest constitution of any of the decorative ferns, will last longer and keep better than any other kind, in fact many people who through adverse conditions have difficulty in growing the Boston type succeed well with this.

4-inch \$0.50 5-inch \$1.00 6-inch \$1.50

HOLLY FERNS—*Cyrtocnema Rockfordiaum*—This is one of the most beautiful ferns to use either as a small plant for table decoration, or to grow into specimen plants. Its foliage is dark glossy green, in shape and color very much resembling the holly foliage. They are used extensively for table decorations at Christmas time, with sprays of berried holly stuck in the pans.

3-inch \$0.30 each \$3.00 per doz
4-inch 0.50 each
5-inch 1.00 each

PALMS

The *Kentia Belmoriana* represents the best in the Palm family. It has all the grace and beauty of foliage desired in a home decorative plant, withstands wonderfully dust, change in the atmosphere and neglect. It is not susceptible to insects and almost immune from disease.

4-inch, \$1.00. 5-inch, \$2.00. 6-inch, \$4.00.
Large plants up to \$15.00 each.

ABUTILON

Flowering Maple. The plants grow rapidly and flower freely and by some are considered indispensable for winter blooming; planted out in the Spring they are effective for bedding or borders.

20 cents each. \$1.50 per doz. \$8.00 per 100.

ECLIPSE—Mottled green and yellow foliage, scarlet bell shaped flowers. Dwarf growing, suitable for window boxes and low bedding; makes a pretty winter blooming plant.

SAVITII—Tall growing, variegated white and green foliage, an excellent border for red foliage *Canna* beds.

ACALPHA

A tall growing plant used extensively for large bedding and border for Canna beds. Can be used among shrubbery for color effect. The foliage is handsome in its coloring, being a combination of bright red and yellow, mottled with chocolate.
 20 cents each. \$1.50 per doz. \$8.00 per 100.

ACHYRANTHES

These are handsome bedding plants that should be more used. They are taller growing than Alternantheras and will stand trimming in shape better than Coleus. The colorings are strikingly beautiful and stand out in distinct contrast when properly planted.

20 cents each. \$1.50 per doz. \$8.00 per 100.

BESTERI MOSIACA—Light green and dark red mottled foliage.
BLARDII—Pointed, broad leaf of purplish crimson.
EMERSONII—Round, broad leaf of purplish crimson.

GIBSONII—Pointed leaf, green with yellow marking.
LINDENII—Color dark purple, with narrow pointed leaves. The popular dark red bedding variety.
McNALLY—Round, broad leaves, green streaked yellow.

AGERATUM

One of the best bedding plants, as they can be depended on to bloom continually during the summer. The blue varieties are particularly valuable on account of a scarcity of this color among our bedding plants; also very satisfactory as a pot plant, the best results being obtained when the plants have become pot-bound. They should be started early enough to be headed back to make them bushy.

20 cents each. \$1.50 per doz. \$8.00 per 100.

DWARF WHITE.
INIMITABLE—Giant blue.
LITTLE GEM—Dwarf blue.
MRS. ALFRED EHMANN—Low plants, free flowering, blue.

PRINCESS PAULINE—Sky blue, white centre.
TRIOMPHE DES PARTERRES—Beautiful variety; Russian blue, strong, robust grower.
STELLA GURNEY—Dwarf, compact grower; large flowers, azure blue.

AGERATUM-FRASERII

We feel confident in offering Ageratum "Fraserii" to our customers that we are offering what will be one of the most valuable acquisitions to the bedding plant line in recent years, that is a blue, a decided blue, that would be continually in bloom. In our trial grounds last summer "Fraserii" attracted more attention than any other bedding plant. It only grew about eight to ten inches high and was covered the entire summer with what can easily be classed as immense truss of flowers, as many of them were over two and one-half inches across, while the individual flower would be seven-eighths of an inch in diameter. The plant spread about twelve to fifteen inches across. It can very easily be used with Alternantheras as a border plant.

Being an early bloomer and dwarf, compact grower, it makes an excellent pot plant.

25 cents each, \$2.50 per doz. \$15.00 per 100.

ALTERNANTHERAS

The most used and most satisfactory bedding plant that we have for lettering, design work and low bedding. The dwarf varieties grow eight to ten inches high and ten to twelve inches wide; requires very little trimming to keep it in shape.

20 cents each. \$1.50 per doz. \$8.00 per 100.

AUREA NANA—Yellow, compact.

BRILLIANTISSIMA—Rich carmine.

CARROLL PARK BEDDER—Dwarf red.

JEWELL—Rich carmine; strong, robust.

SEYBOLDII—Yellow; strong grower.

VERSICOLOR—Crimson, chocolate and green; tall grower.

PARONYCHOIDES—Red fringed with yellow and scarlet.

ALYSSUM

The Dwarf Alyssum is used for low borders, vases, baskets, rock-work, etc., producing a continuous succession of small white flowers. It is also the best for pot culture; the tall, or giant, is useful for vases, window boxes, etc., where a drooping effect is desired. It is also very useful as a winter cut flower, blooming continually the whole season. It does best in a carnation temperature.

20 cents each. \$1.50 per doz. \$8.00 per 100.

BEGONIAS

Begonias can be adapted to almost any use to which a blooming plant can be used. As a pot plant it is superb; as a bedding plant it cannot be excelled. They are continuously in bloom the entire summer season, and as a house plant they can be depended upon to bloom as long as desired.

"PRIDE OF NEW CASTLE"—A red sport of Glorie de Chatelaine, possessing all the characteristics and habits of this favorite variety. The color is a deep rich Begonia red.

25 cents each. \$2.50 per doz.

GRACILLIS ROSEA—Handsome flower of a delicate rose color.

LUMINOSA—Red flower; foliage turning redish bronze when growing in the sun.

GRACILLIS PFITZERI TRIUMPH—Pure white, free flowering.

GLORIE DE CHATELAINE—Dwarf, compact grower. Always full of flowers of a lively pure pink color, a good hardy grower. This is becoming a popular pot and bedding plant.

20 cents each. \$1.50 per doz.
\$8.00 per 100

CUPHEA

Cigar Plants. Flowers tubular in shape, 1½ to 2 inches long, and have two bright scarlet wings at the end of each flower. The tip of the flower is bright purple, the stamens are pure white. Useful as a basket or pot plant; blooms continuously.

2-inch, \$0.75 per doz. \$3.00 per 100. \$27.50 per 1000.
3-inch, 1.00 per doz. 4.50 per 100. 40.00 per 1000.

CANNAS

In Cannas we have not tried to offer a large list, which necessitates the duplication of varieties, but rather to offer a list of distinct, dependable varieties. The plants we offer are strong three-inch-pot plants, which will make an immediate effect, and should not be planted until all danger of frost is over. Unless otherwise noted, the price is 25 cents each, \$1.50 per doz., \$10.00 per 100.

CANNAS—Continued

ALPHONSE BOUVIER—Crimson; five feet.
CITY OF PORTLAND—A wonderfully deep rosy salmon, color much richer than Mrs. Alfred Conard; the flowers are of a large size, abundantly produced in large trusses. 50 cents each. \$6.00 per doz.

\$25.00 per 100

FLORENCE VAUGHAN—Green foliage, rich golden yellow, dotted red flowers, five feet.

GLADIATOR—Strong, vigorous grower, with fine green foliage; large heads of flowers; color is yellow spotted with red; blooms early and late, always looks cheerful.

GUSTAV GYMPPER—This is an ideal rich yellow bedding Canna, the flowers of good size are held well above the foliage. The color is a rich golden yellow, a shade that can be seen as far as the eye can carry.

J. D. EISELE—Brilliant vermilion, scarlet, three and one-half feet.

JEAN TISSOT—Brilliant vermilion, orange shading, three and one-half feet.

KING HUMBERT—In this we have the finest type of orange scarlet flowers combined with the finest type of bronze foliage 25 cents each. \$2.50 per doz.

\$10.00 per 100

LOUISIANA—Large, vivid scarlet flowers, glossy green foliage.

MAROS—The best white flowering Canna. Its flowers of creamy white are produced very freely on stems thrown well above the foliage.

MME. CROZY—Popular and valuable; rich orange scarlet flower, edged with bright golden yellow. Four feet.

THE PRESIDENT—The flowers are produced in immense trusses of the most brilliant red, it possesses all the good points of Fire Brand enhanced by extraordinary vigor and perfectly healthy foliage.

50 cents each. \$3.50 per doz.

\$25.00 per 100

PRESIDENT MYERS—Rich, carmine flowers, bronze foliage, four feet.

QUEEN CHARLOTTE—Rich pomegranate red, bordered with bright golden yellow.

RICHARD WALLACE—Green foliage, large canary yellow flowers. 4½ feet.

ROSEA GIGANTEA—Rich rose-pink flowers, dark foliage, four feet. 35 cts. each.

\$2.50 per doz. \$15.00 per 100

RUBIN—Bright scarlet flowers, dark foliage. Four feet.

SOUV. d'ANTOINE CROZY—Beautiful red, bordered with golden yellow.

UNCLE SAM—Clear, deep orange flowers, borne in large clusters, handsome, luxuriant, rich green foliage. Six feet.

VENUS—The color is a gay rose-pink with mottled border of creamy white.

WYOMING—Orange-scarlet flowers; dark foliage. Four and one-half feet.

CHRYSANTHEMUMS

These are universally popular for bedding as well as for cut flowers. No collection of Chrysanthemums is complete without some of them, and, considering their many qualities, there is no cause for surprise to see them cultivated so extensively.

Plants from 2-inch pots, 10 cents each, \$1.00 per doz., \$6.00 per 100.

LARGE FLOWERING OR ASTER VARIETIES

These are not the large flowering or exhibition varieties, but the large flowering Hardy Chrysanthemums which will make flowers about two to three inches in diameter. For cut flowers the best results are obtained by a slight disbudding, leaving from six to eight flowers on a spray. They should also be somewhat protected from the frost when desired for cutting.

AGALEA—Orange-yellow slightly tinged with pink, turning to reddish bronze.

ASHBURY—Sulphur-white; for cut flowers.

BRADSHAW—Lilac rose, cut petals.

DAISY ANDERSON—Reddish bronze; dwarf.

ELDORADO—Bright golden; open center.

ELKTON—Light pink; full, large flowers.

ELEANOR—Dwarf; fimbriated petals; white.

ELOISE—White; open center.

EXCELLENCE—Pure white; tall grower.

EXCELSIOR—Bright orange-yellow; long stems.

FINDOM—Violet rose.

GERMANIA—Large flowers; straw white; long stems.

CHRYSANTHEMUMS—Continued

GERTRUDE—Pure white; open center.
HESTER—Pearl white, shaded flesh.
IRENE—Pure white, shaded pink; early.
JERRY—Rose lilac.
JERSEY—Pure white.
JULIA LAGRAVERE—Crimson maroon; for cut flowers.
KING HENRY—Straw white; long stems.
LELIA—Bright rich red.
LILIAN DOTY—The finest pink in the large flowering section of the entire Pompon family.
LORLEY—Large, full flowers; yellow, tinged pink.
MISS EMMA—Golden bronze; tall.
MISS JULIA—Orange-red, turning yellow.
PETO—Rich bronze; dwarf.

QUEEN OF WHITE—Fine creamy white; long stems.
REBECCA—Orange-yellow.
ST. ILLORIA—Silver-rose; quilled petals; for cut flowers.
SALEM—Silver-rose; long-quilled petals.
SIR MICHAEL—Lemon-yellow, open centre; for cut flowers.
STRATAGEM—Dark-red bronze.
SUSQUEHANNA—Clear lemon-yellow.
TRIOMPHE d'OR—Rich golden yellow.
THE HUB—Fine white, open center; for cut flowers.
URITH—Large flowers, broad petals; bronze, tipped yellow.
VIOLA—Rich violet rose.
WINDLESS—Rich golden yellow; large flowers.

SMALL FLOWERED OR BUTTON VARIETIES

The small flowering or button varieties are most suitable for borders and outdoor blooming, as the flowers are not easily damaged by frost. The flowers of these are usually two inches or less in diameter, Baby and other small varieties only being about three-quarters of an inch in diameter. Grown as cut flowers they are very effective when used with large flowers. Florists find that a few of them add a great deal to the appearance of a box or spray of specimen flowers.

ALICE CARY—Pure yellow.
ANNA MARY—Creamy white, shade pink.
BABY—Smallest golden yellow.
CERISE QUEEN—Cerise pink; very fine growers.
DAWN—Daybreak pink.
DONALD—Light pink; fine grower.
DORIS—Pure bronze; one of the best.
ELEGANTA—Deep rose, shaded white.
ERMINE—Bright orange yellow.
FASHION—Maize yellow; for cut flowers.
FRED PEEL—Lilac red.
GOLDEN PHEASANT—Deep orange yellow.

GOLDEN WEST—Small quilled flowers; bright golden yellow.
GOLDEN CLIMAX—Orange yellow.
HENRIETTE—Bronze yellow edge.
INEZ—Scarlet bronze and rose.
JAMES BOONE—Pure white.
LYNDHURST—Deep scarlet bronze.
NELLIE BLY—Blush pink.
NELLIE RAINSFORD—Very dwarf; light pink.
NESCO—Clear pink.
RHODA—Pink, shaded white.
RUFUS—Crimson maroon.
RUTH—Rose lilac, very attractive.
TENNYSON—Pure yellow, for cut-flowers.
YELLOW GEM—Golden yellow.

ANEMONE VARIETIES

The Anemone varieties are so-called from the arrangement of the inner petals, resembling the Japanese Windflower. The flowers are about two to two and one-half inches in diameter. When grown for cut flowers should be protected from heavy frost.

BARNEY—Golden bronze.
EARLE—Pearl white, silver-rose centre; dwarf.
EVA—Rose pink.
FURNESSIA—Silver white.
LADY OLIVIA—Beautiful white.

MATILDA—White.
MAY SUYDAN—Bronze.
MEYER'S PERFECTION—Fine, pure white, tall grower.
PALMYRA—Silver pink.
PRINCE DANILO—Pure white.

CHRYSANTHEMUMS—Continued

SINGLE OR DAISY VARIETIES

These are the single, open-center varieties, resembling a Daisy. They are widely grown as cut flowers, when they need some protection from frost.

AARON—Bronze scarlet.

LITTLE GEORGE—Small flowered. Violet red.

MARIANA—Large flowered and snow white on long stiff stem.

PINK DAISY—Light pink.

PROVIDENCE—Early white.

ROSY MORN—Silver white.

WALLACE—Pure yellow.

WESTERN BEAUTY—Deep rose pink.

COLEUS

The Coleus is a plant familiar to all; for bedding purposes it cannot be excelled. The foliage is very beautiful and in a great variety of shades and markings, yellows and red predominating. It is used in great quantities in private places, public gardens and parks. The Coleus shows up best and makes the best showing when planted in color masses, light and dark colors contrasting. Coleus requires full sunlight to bring out its brightest colors.

BRILLIANCY—This variety belongs to the Giant leaf section; of strong vigorous habit growing from 2 to 3 feet high; leaves often from 9 to 19 inches long which are of a bright carmine, shading off to a deep maroon, the margin being yellow and green, the whole leaf having a rich velvety lustre.

STANDARD VARIETIES

ANNIE PFITZER—Very dwarf; yellow.

BECKWITH GEM—Magnificent scalloped edge, center bright, soft crimson maroon, bordered with a gorgeous combination of green and gold.

DUNERIA—A magnificent Coleus; color, various shades of crimson, with leaves very large; a magnificent showy bedder, standing the sun as well as Verschaffeltii.

DAZZLING GEM—Rose-pink center, margin of chocolate green. Dwarf compact grower. Stocky pot plant variety.

ELDORADO—Luxuriant velvety foliage; old gold, handsomely ribbed and blotched very dark garnet.

FIRE BRAND—Bright maroon; charmingly flamed and shaded, vividly glowing scarlet of wondrous beauty.

GOLDEN BEDDER—This indispensable and favorite yellow bedder needs no description.

HERO—The model of perfection in dark colors, almost jet black leaves, pointed and scalloped; a remarkably handsome variety.

JOHN PFITZER—Dwarf, compact grower, reddish crimson edged with yellow.

LORD PALMERSTON—An excellent, beautiful, dark velvety maroon center, with dark crimson ribs, commanding admiration from all.

LYONS—A beautiful yellow variety, with handsome markings, a good bedder and quite distinct.

MRS. HAYS—Colors and shades are wonderful; lovely, bright golden yellow, ribbed and margined velvety crimson.

QUEEN VICTORIA—Remarkably handsome; bright cardinal red, with distinct bright golden border; strikingly beautiful.

ROB ROY—The beautiful dwarf variety, pinkish red, with crinkled edges, winning an enthusiastic admiration for all who see it.

SENSATION—Dark maroon, light crimson with pink ribs and center.

SUN RAY—Dwarf, crimson center blotched with pink, deep scalloped green and yellow edges.

VERSCHAFFELTII—The standard crimson bedding variety.

TRAILING QUEEN—The so-called running variety, small foliage dwarf grower; yellow and pink center, bordered with maroon and green.

YELLOW TRAILING QUEEN—Center of bright yellow, bordered with olive green, with deeply serrated edges intermingled with yellow. 20 cts. each. \$1.50 per doz. \$8.00 per 100

THE PATRICK O'MARA

The Only Dahlia Awarded a Gold Medal by the American Dahlia Society

DAHLIAS

The prices quoted are for strong pot-grown plants, which many experienced growers of the finest grade of cut flowers prefer to roots, claiming that they produce a far superior grade of flowers.

The time of planting depends on the location, usually about the time that the vegetables are being planted. For Maryland and vicinity we suggest May 20th to June 20th as the proper time.

	<i>Each</i>	<i>Doz.</i>
A. C. IDE (Decorative). This is a grand variety and one certain to be in demand, especially for exhibition. It is large, of fine quality and blooms are produced freely. The color is a rich, velvety maroon	\$0.50	\$5.00

FUTURITY —(Decorative). Similar color to Lyon Rose; flowers very large and freely produced.....	.75	7.50
GEISHA —(Peony). Rich combination of scarlet and gold, with a yellow centre, which becomes suffused with and deepens to scarlet at centre, petals shading lighter at edges.....	.50	5.00
GEN. J. B. SETH —(Cactus). A rich, gorgeous Dahlia of brilliant scarlet shadings; of perfect form held well above the foliage on stiff stems. This variety is a glow of color until the end of the season30	3.00
GEORGE WALTERS —(Decorative). Another large flowering dahlia with extra strong stems. Color, salmon and shrimp pink shades	1.00	10.00
GOLDEN GATE —(Cactus). Truly a colossal Cactus; flowers often measure 9 inches in diameter, full to the centre. Petals are of a heavy leathery texture. The color is a bright golden yellow, early and free flowering. A first-class dahlia in every respect.....	.30	3.00
GOLDEN WEST —(Decorative). Best yellow, good stems, fine for cutting25	2.50
HARMONY —(Decorative). Pale tint of rose pink, very free....	.75	7.50
HENRY PATRICK —(Decorative). Large, pure white.....	.15	1.50
H. J. LOVINK —(Peony). Lilac at outer edge, base of petals yellowish, sometimes running in strips through the petals.....	.30	3.00
HONESTY —(Cactus). Pink, with white centre; excellent garden variety; long, stiff stems; very free.....	.75	7.50

DAHLIAS—Continued

	<i>Each</i>	<i>Doz.</i>
HON. R. L. BORDON —(Peony). Large; distinct, rich, golden bronze. One of the finest of recent introduction.....	.20	2.00
HORTULANUS FIET —(Decorative). Another giant-flowered variety. The most delicate shade of shrimp pink, the tips of each petal barely touched with gold. The entire flower has a suffusion of delicate tints of red and yellow, which gives a glow, yet softness of color difficult to describe.....	1.00	10.00
HORTULANUS WITTE —(Decorative). A very large, long stemmed, free-flowering, pure white. A splendid cut flower and exhibition variety50	5.00
INDIAN CHIEF —(Pompon). Crimson.....	.15	1.50
JACK'S DISCOVERY —(Decorative). White, mottled violet rose..	.25	2.50
JACK ROSE —(Decorative). Rich, velvety crimson. An ideal cut flower sort20	2.00
JANE SELBY —(Decorative). An immense pink decorative of wonderful formation. Flowers are borne on long, stiff stems above the foliage15	1.50
JEAN CHARMANT —(Decorative). Pink, lilac at edges.....	.25	2.50
JEAN KERR —(Decorative). Burpee said in introducing this dahlia that it is the most valuable white decorative dahlia. Let the weather be as it may, and no other dahlia blooming, Jean Kerr will be a mass of flowers. It is one of the first to flower and blooms continually until killed by frost. In type it is a short-petaled decorative and by some may be termed a show or ball dahlia. Its outstanding merits is due to the fact that it never fails to flower freely. A pure white bloom, carried gracefully on long and strong stem well above the foliage. A foremost variety for cut flowers, but just as important as a garden variety, due to its compact strong growth and free-flowering habit.....	.75	7.50
J. HARRISON DICK —(Cactus). A hybrid Cactus of immense size, which is freely produced on rigid stems. It is an exhibition variety of the highest class. The color baffles successful description of the ground color, being a pleasing shade of canary yellow, shading through orange lavender, and pink to the outer edges of petals; this Byron rose.....	1.00	10.00
KALIF —(Colossal Cactus). A truly majestic flower, frequently measuring 8 to 9 inches in diameter; a perfect Cactus form, in color a pure scarlet.....	.50	5.00
KING OF AUTUMN —(Decorative). Large perfectly formed flowers, held erect on long stiff stems. The color is a beautiful shade of burnt amber, tinged and shaded old rose.....	.50	5.00
LAWINE —(Cactus). White showing blush as the flower matures15	1.50

GERANIUMS

We have no hesitation in claiming that our selection of Standard sorts stands preeminent among such collections in the world. It contains only distinct and useful varieties and is the result of the most careful selection of hundreds of varieties introduced by the foremost European and American hybridizers. We have listed only those sorts which years of experience in growing and selling Geraniums has taught us are the very best in their different classes, such as can be depended on to produce the most satisfactory results and which represents the highest standard of development yet obtained in their special class and color.

In keeping this list up to this high standard we are constantly adding many of the newer sorts and discarding some of the old sorts which have been favorites but are now superseded by others which are more beautiful in form, greater in substance, more exquisite in color and more satisfactory in growth.

20 cents each. \$2.00 per doz. \$10.00 per 100.

ABBIE SCHAFFER—A beautiful soft pleasing crimson scarlet, in fact, the finest and most dependable Red we have; splendid semi-double flowers, magnificent trusses, abundantly produced; excellent semi-dwarf habit. A variety that is good everywhere.

ALPHONSE RICARD—A geranium of such perfect habit that it has become the standard by which all other geraniums are judged. The handsome perfectly formed, semi-double flowers of a bright vermilion scarlet are produced in profusion and the foliage is a handsome, luxuriant, bright green, slightly zoned. It is in every respect a general favorite.

BEAUTY POITEVINE—One of the most popular varieties that we have. With its lively light salmon color, its semi-dwarf, robust and branching habit, beautiful deep-zoned foliage, healthy constitution, perfectly formed flowers and enormous trusses freely produced. It is a variety that can be depended on.

BERTHA de PRESILLY—A most beautiful shade of silver rose pink, slightly shading to an almost white center; large semi-double flowers, profusely produced in splendid trusses, handsome light green foliage. One of the best bedding pinks we have, standing the sun well.

COL. THOMAS—One of the best among recent introduction. Distinct in color and exceptionally attractive, the color being a pleasing shade of deep, cardinal red and apparently covered with purplish sheen, deepening toward the center of the large, well-formed flowers, which are borne in long trusses; the habit is ideal; dwarf, vigorous and branching.

COUSIN JANIE—Dwarf, compact grower; very free flowering; exceptionally fine as a pot plant; small, light green foliage; semi-double flowers of a pleasing clear pink, slightly spotted red, gradually shading to a white center.

DAGATA—One of the most distinct and handsome pink geraniums we have, the foliage attains a magnificent size. It is that exquisite rich green which is so much admired by the most discriminating trade; the color is a strikingly beautiful shade of mauve rose, with large blotches of white at the base of petals; the trusses are gigantic and produced in profusion.

GERANIUMS—Continued

DOUBLE DRYDEN—An ideal fancy pot plant as well as a good bedder. In color it is an attractive combination being coral white at the center, shading through delicate lilac toward the outer edge of the petals, which are a beautiful glowing soft crimson; flowers and trusses of a good size.

EDMOND BLANC—One of the newer standard geraniums that is attracting attention wherever seen on account of the handsome coloring being the most beautiful of the cerise shades. The color is a bright carmine shaded around the white eye and on upper petals with bright scarlet. The flowers are perfectly formed in large trusses, which are freely produced, foliage deep rich green, slightly zoned.

E. H. TREGO—One of the most beautiful shades of dazzling scarlet with an exquisite soft, velvety finish on a saffron ground. The flowers large semi-double and often measure 2 inches in diameter produced in enormous trusses in great profusion. The foliage is glossy green, with dark zone, large and of good texture; an excellent semi-dwarf, robust and branching. An ideal pot variety.

GENERAL GRANT—A universal favorite as a bedder; bright orange scarlet flowers profusely produced during the entire season in medium size trusses; a vigorous grower standing the sun exceptionally well.

JEAN OBERLE—One of the most beautiful among the colors known as peach pink, shading tenderly to almost pure white on outer edge of each petal; the florets are exceptionally well formed; immense trusses; habit usually strong and vigorous, very free bloomer; foliage distinct and one of the types that stand the sun well.

JEAN VIAUD—An attractive bright, clear shade of mauve rose, shading to a distinct white center; flowers are large and trusses enormous sometimes measuring 6 inches in diameter; habit dwarf, compact vigorous and exceptionally free flowering.

LA FAVORITE—One of the finest double whites in its class; pure in color, flowers of an enormous size. A continuous bloomer, the plant being covered with flowers the entire season, beautiful foliage; finest habit; unsurpassed as a bedder.

LA PILOTE—Brightest vermilion scarlet; an excellent grower and a profuse bloomer; foliage deeply zoned. A magnificent and striking variety and splendid for pot culture.

LEON BAUDRIER—Semi-double Cyclops. Immense semi-double flowers, large full trusses, freely produced on long rigid stems; foliage thick and leathery texture, habit of growth robust and branching. Colors a beautiful shade of carmine lake, shading soft cerise to a large white center. A most excellent fancy pot plant.

LEPOLD BOUILLE—Semi-double Cyclops; bright solferino red, upper petals richly shaded carmine purple to a distinct white throat; profuse bloomer; flowers large of perfect form and borne in large trusses; habit is ideal. Like all the superb cyclops this will, within a short time, become universal and an indispensable favorite. Exceptionally good for pot plants.

M. A. ROSELEUR—A most beautiful shade of Neyron rose. The flowers are large, semi-double, showing a distinct white center; enormous trusses borne on long, stiff stems well above the clean, extremely handsome foliage. In habit of growth it is the most pleasing semi-dwarf, short jointed and vigorous. We unhesitatingly recommend it, as there is no question but what it will give satisfaction in every case, either as a pot plant or bedder.

MARQUIS de CASTELLANE—One of the most beautiful and distinct geraniums in the Bruant class. Beautiful soft crimson, varying to tomato red. The flowers are very large, perfect in form and borne in large trusses, profusely produced on long rigid stems; foliage large and of fine heavy texture, slightly zoned habit, semi-dwarf and vigorous; strong constitution. A variety which we can recommend, knowing that it is one of the healthiest growers that we have.

MARQUIS de MONTMORT—Deep crimson carmine. A very novel and beautiful shade; fine large trusses and florets held well above the strong, robust deep-zoned foliage. An exceptionally striking variety greatly admired.

MISS F. PERKINS—An exquisite shade of deep rose pink, with a distinct white throat; large handsome flowers and trusses borne on long, stiff stems held well above the foliage; well known standard favorite as a bedder or pot plant; constant bloomer, being a mass of color the entire season; strong constitution, standing our extreme climate conditions in fine shape.

GERANIUMS—Continued

MISS KENDALL—Dark carmine red shading to geranium lake towards the center of the bold, round full flowers of fine form; trusses large and strikingly handsome; strong, vigorous grower; dark rich green, deep-zoned foliage; slightly zoned.

MME. CANOVAS—Very dark velvety scarlet, with maroon shading; immense florets, produced in large trusses on long stems held well above the foliage. A rival to S. A. Nutt in color but a stronger grower.

MME. CHARLOTTE—Flowers are large semi-double and perfect form; trusses enormous, produced in great profusion on good long stems throughout the entire season; habit is dwarf, robust and vigorous; foliage heavy deep green, broad chocolate zone. The color is a clear distinct salmon shading lighter toward the outer edge; unexcelled as a pot plant; a splendid bedder.

MME. F. SARLOVEZE—An exquisite and pleasing shade of light rose, shading to a white center; the immense and semi-double flowers are very attractive; dwarf and branching in habit and growth.

MME. JAULIN—Flowers are very large, produced in enormous trusses, semi-dwarf and compact grower. The foliage is large, handsome and deeply zoned; flowers large; trusses immense and freely produced; color an exquisite shade of rich, light salmon, shading lighter to an almost white margin at edge of petals.

MME. LAPORTE BISQUE—A very strong, robust, semi-dwarf and compact grower. The foliage is large, handsome and deeply zoned; flowers large; trusses immense and freely produced; color an exquisite shade of rich light salmon, shading lighter to an almost white margin at edge of petals.

MME. LANDRY—One of the choicest and handsomest of the Bruant race, very free and constantly in bloom throughout the season; florets are large and borne in enormous trusses on long stems held well above the foliage. Color is a brilliant shade of apricot shading to a copper with white eye; in habit it is robust, semi-dwarf and a vigorous grower; broad-fluted, slightly zoned foliage; evidently the best white we have.

MONSIEUR EMILE DAVID—Strong, healthy, erect growth of luxuriant glossy green foliage; trusses enormous dimension; immense semi-double flowers of a violet rose color with base of upper petals feathered white; freely produced on long stiff stems. Unsurpassed as a bedder.

MME. RECAMIER—Pure white; individual flowers are double, beautifully formed and produced in enormous trusses; strong and vigorous grower; broad-fluted, slightly zoned foliage; evidently the best white we have.

MRS. ANNIE VINCENT—Exquisite semi-double flowers of a pure carmine color somewhat maculated white; incomparable for freshness and brightness; short, robust grower, with exceptional resistance to inclement weather. The handsome semi-double flowers are produced in magnificent trusses well above the attractive foliage.

MRS. LAWRENCE—This is one of the finest geraniums that we have in this color. Clear, healthy foliage; splendid dwarf, compact habit of growth; wonderfully free in flowering; indispensable as a pot plant, being strongly recommended as a flower for winter; unsurpassed as a bedder. The color is an artistic shade of satiny salmon pink, slightly tinged white.

ORNELLA—A continual bloomer; beautiful semi-double, deep rich scarlet flowers, slightly shaded crimson; excellent habit, splendid truss and foliage. A magnificent variety, which we are confident will meet the requirements of any semi-double scarlet geranium. Luxuriant both as a pot plant and a bedder.

PRESIDENT BAILLET—This variety represents the true Bruant type. Beautiful, heavy, luxuriant, slightly zoned foliage; strong, robust grower, enormous trusses of semi-double flowers freely produced; color a bright scarlet, with a soft velvety finish; strong, healthy constitution, standing the sun well.

S. A. NUTT—A dark red geranium. Considered to be one of the best bedders and is more generally used than any other geranium, both as a pot plant and a bedder. A vigorous compact grower, with clean, healthy constitution.

SCARLET BEDDER—A rather dwarf, compact grower; medium size, deep-zone foliage; free flowering, fair trusses of perfectly formed semi-double flowers; dark, fiery red color, not as dark as S. A. Nutt; magnificent as a pot plant, as well as a bedder.

GERANIUMS—Continued

SINGLE VARIETIES

ADMIRATION—A strong robust grower, with bright rose shrimp-pink flowers, shading to a white center, a profuse bloomer; enormous trusses of beautifully formed flowers.

ALICE OF VINCENNES—A very distinct and pleasing combination of color; white ground with a charming graduation of shades from white throat through a beautiful shade of violet crimson to an immense scarlet margin.

ANTITHESIS—Large, round flowers of vermilion scarlet, with a large spot on upper petals; grand contrast of color; very floriferous, robust, compact grower.

ARDENS—Excellent large flowers and trusses of a beautiful and attractive shade of vermilion scarlet, with a distinct white throat; fine habit of growth.

CHARLES GUERIN—Round flowers of a salmon carmine color, white eye, enormous trusses; flowers are perfectly formed; a most profuse bloomer.

CLARIE ALBANE—Large flowers of pure white; strong constitution enabling it to withstand summer heat extremely well. An excellent variety.

CLIFTON—A handsome dark, velvety, deep scarlet with maroon shading, vigorous, compact grower; well formed flowers, produced in enormous trusses. Clean, healthy constitution and stands the sun well.

COUNT ZEPPELIN—An excellent bedding variety. Most attractive and beautiful shade of light vermilion; dwarf, compact grower; shape and habit of growth all that can be desired in an ideal pot plant. A decided acquisition to any collection.

COMMANDANT OTT—An extremely handsome variety, having beautiful flowers of a shade of aniline red, with large white center; fine habit of growth; large trusses.

EMMANUEL ARENE—Immense trusses, well-formed flowers, of a deep rich velvet crimson, maculated orange red.

EUGENE SUE—A very attractive and brilliant shade of russet orange; immense foliage of fine texture; floriferous effect of this variety is incomparable; semi-dwarf; robust and branching habit.

FEUER—A variety that was very highly recommended when it came into our possession and it has not disappointed us. It is a continuous yielder of a brilliant crimson-red flower; dwarf, compact grower.

GABRIEL MONTOYA—A strong robust grower of most exquisite reddish-purple flowers; a distinct and attractive shade; continual bloomer; very large trusses.

GRANVILLE—An excellent bedding variety; most attractive shade of deep-rose pink, with white blotches on upper petals; desirable, strong, compact and beautiful habit, standing the sun extremely well.

JEAN PABON—Robust and free flowering; the trusses are enormous and held well above the foliage. Grand round flower, blood red color, small white eye; good strong robust grower; clean, healthy constitution.

JACQUERIE—A most beautiful shade of deep carmine red, immense trusses on exceptionally long stems; very vigorous grower and unsurpassed as a bedder.

JUSTE OLIVER—A peculiar and pleasing shade of carmine purple, upper petals shaded fiery red; a unique and beautiful color for bedding and massing.

KONIGEN OLGA WURTEMBERG—An old, popular bedder; dwarf grower, exquisite shade of deep rose, white at base of petals; a profuse bloomer, flowers being produced at every joint; unsurpassed as a bedder.

L'AUBE—Excellent trusses and flowers of pure snow white. One of the best single whites of this class, retaining its purity the entire season; an excellent pot plant.

MARGUERITE de LAYRE—Continual bloomer; pure white flowers. Attractive, pleasing variety; enormous trusses, freely produced on long rigid stems.

MAXIME KOVALESKI—Fine, vigorous grower; handsome foliage; beautiful orange shade of Lincoln red; a very distinct and striking variety when massed; a great acquisition to bedding class.

MLLE. ANATASIA LACADRE—Immense trusses and flowers of a rich crimson carmine shading through a maculated effect to a pure white center; handsome deep-green foliage of fine substance; unsurpassed as a bedder.

MME. MOSNAY—Perfectly formed flowers of a magnificent shade of geranium red, upper petals shaded violet to a white center; flowers produced in enormous trusses on long rigid stems; handsome deep-green foliage; unsurpassed as a bedder.

MRS. E. G. HILL—An exquisite shade of soft, light salmon, continual bloomer; excellent bedding variety; semi-dwarf; will resist the heat of the sun.

GERANIUMS—Continued

MRS. E. RAWSON—Extraordinarily strong and vigorous grower of immense semi-dwarf bright scarlet flowers, with crimson shading on upper petals; capable of withstanding the extreme summer heat; excellent for bedding.

PAMELA—This is a variety that is universally admired; immense rounds of flowers with a pure white center shading through a maculated effect to a broad, distinct, outer margin of crimson lake; an exceptionally strong, vigorous grower for an English round flower sort.

PAUL CRAMPEL—Attractive shade of vermilion scarlet; deep rich green, distinctly zoned foliage; strong, compact, vigorous.

PRINCESS ALEX—Large and perfect flowers of a most pleasing shade, of bright carmine lake, produced freely in grand trusses. An exceptionally fine pot plant.

RIVAL—A result of a cross between Zonal and Ivy-leaved type, retaining more of the nature of the Zonal and possessing many of the good points of both parents. Splendid as a pot plant and under favorable conditions is an excellent bedder. Color a unique soft shade of salmon red, upper petals beautifully blotched.

ROSALDA—Extremely handsome flower of a rich crimson pink, upper petals heavily blotched white and pencilled crimson; a true representative of the Bruant race.

SNOWDROP—Strong, compact grower; splendid bedding variety, having enormous trusses of pure white flowers, held well above the foliage. A variety that will not fade.

SYCAMORE—An attractive shade of salmon pink; profuse bloomer; very large flowers produced in enormous trusses on long rigid stems; strong vigorous grower of good habit.

TEODOR de WYZEWA—Cheerful clear shade of a clear lilac rose, with blotch on upper petals; strong branching, semi-dwarf grower, of beautiful flowers and trusses abundantly produced.

TELEGRAPH—Mammoth, dark green, slightly zoned foliage; strong robust grower, having an iron-clad constitution and stands the sun with perfect immunity; enormous flowers and trusses of beautiful Lincoln red.

THE SIDAR—Magnificent round flowers of an exquisite shade of intense scarlet; large trusses produced on long rigid stems, making a very attractive variety.

TIFFIN—One of the finest blooming single varieties; flowers of an attractive shade of rich, glowing scarlet; crimson shading on upper petals.

VICTOR GROSSET—Continual bloomer; excellent truss and flowers of a bright rich shade of apricot salmon, bordering on vermilion scarlet; splendid bedder, excellent habit; strong, healthy constitution.

IVY LEAVED GERANIUMS

ALPHA—The foliage is finely denticulated. The center of the leaf is greenish maize, with a broad dark zone, edged golden yellow; free flowering, of a rich shade of scarlet red. A single medium size, abundantly produced in fair size trusses.

ACHIEVEMENT—Distinct and pleasing shade of soft cerise pink; immense semi-double flowers, freely produced in large trusses; capable of withstanding inclement weather because of the hardness of its strength, the result of a cross with Zonal.

ALLIANCE—A French hybrid between a Zonal and Ivy. Its color is a most exquisite shade of delicate, lilac white, upper petals feathered and blotched bright crimson rose; flowers semi-double and abundantly produced in fine, large trusses; foliage beautiful, clean and of splendid leathery texture; habit excellent, robust, strong, close-jointed.

BALLADE—Large semi-double flowers and trusses of a magnificent shade of tender lilac, upper petals feathered with crimson maroon; a strong, steady grower, of splendid habit; a fine pot plant.

BETTINA—Superior, semi-double flowers and trusses of a magnificent shade of tender lilac white, center of petals and flowers being blotched with Tyrian rose; remarkable as a pot plant; dwarf, compact habit.

CAESAR FRANCK—One of the most popular ivy geraniums yet introduced, the color is an attractive shade of soft, rich crimson, with an exquisite shading of tender rose at the base of petals; habit vigorous, quick growing and pleasing; strong constitution.

GERANIUMS—Continued

COLONEL BADEN POWELL—Flowers of enormous size, one of the largest among the Ivies, abundantly produced in good size trusses; semi-double, of elegant showy form; color varies at times from pearl white to soft blush.

GORDENS GLORY—Flowers of good quality and large size; pleasing and attractive for fancy baskets or vases; a profuse bearer of a beautiful bright scarlet flower, which is considered to be one of the best of its type.

COUNTESS de GREY—Profuse bloomer; large well-formed flowers; a pleasing light satiny salmon color; foliage and petals of fine durable substance; strong, healthy, erect growth; luxuriant glossy, green foliage.

HECTOR GALCOMELLE—An exquisite shade of lavender white, effective tinted pale rose, upper petals distinctly feathered, crimson maroon, lower petals touched with same color; large semi-double flowers, splendid habit of growth.

INCOMPARABLE—Very large trusses; florets immense and regular in form; a beautiful variety and exquisite shade of rose carmine; dwarf bold, compact grower.

JAMES ATTFIELD—A hybrid, extra large, double flowers of a pretty tint of soft pink, short jointed in growth; very free.

JAMES T. HAMILTON—A hybrid; intense carmine crimson; long stout stems; good for bedding or pot work.

JOSEPH WARREN—A distinct and striking variety; large bold, semi-double of good substance; lovely rich purple, rose color, slightly feathered dark maroon.

MME. THIBAUT—Magnificent shade of clear rose pink, upper petals delicately but distinctly feathered deep crimson maroon; immense trusses, undulated petals; strong, vigorous habit; luxuriant waxy foliage.

MRS. BANKS—Flowers are large, semi-double and borne in medium size trusses on long wiry stems; color a pleasing shade of blush white, upper petals feathered reddish Neyron; in habit of growth it is truly an ivy; exceptionally strong and vigorous, flowering abundantly through the winter; handsome light green foliage.

MRS. HAWLEY—Pleasing shade of rose cerise, slight magenta shading, dark blotch on upper petals; large semi-double flowers; strong, robust grower; splendid habit.

PIERRE CROZY—Profuse bloomer; large semi-double flowers, color bright scarlet, handsome and delicate finish; open trusses; possesses all the good qualities, which make up an ideal pot plant; low growing bedder; very heavy in texture while forms of truss and florets are found only among the ivies.

RYCROFT SURPRISE—Semi-dwarf, short jointed and branching habit of growth. One of the most beautiful and best ivy geraniums that we have. In color it is a charming clear rose—a rich pink which is very attractive. Combining all these qualities, it makes an ideal ivy geranium.

SCARLET CROUSSE—A magnificent shade of cardinal red; fine full flowers, large trusses; splendid free, bold habit, deep green foliage of fine substance; very effective.

SOUV. de CHAS. TURNER—Deep pink, feathered maroon on upper petals; individual florets 2½ to 3 inches across.

VARIEGATED FOLIAGE VARIETIES

MARSHAL MacMAHON—Golden yellow with a zone of dark chocolate; fine large foliage; a splendid bedder.

MOUNTAIN OF SNOW—Single flowers of a scarlet red color; luxuriant light green foliage, distinct variegated white; spreading and branching habit; very healthy grower.

BRONZE BEDDER—Golden yellow foliage; with scarlet blossoms; stands the sun well.

HAPPY THOUGHT—A tri-color Geranium with very dark green foliage, having a light creamy almost white center with a dark zone; flowers bright scarlet.

MRS. POLLACK—Attractive orange-red flowers; beautiful foliage; very distinct markings; bright bronze-red zone, belted with crimson, edged with golden yellow.

MME. SALLEROI—Makes a round, pretty plant about one foot high and wide; foliage bright green, edged with pure white; dwarf, compact grower.

GERANIUMS—Continued

SILVER LEAF S. A. NUTT—Exquisite foliage, having a green ground edged white, very similar to Mme. Salleroy, much stronger grower; flowers large, produced in fine trusses; continual bloomer of excellent crimson-scarlet flowers.

SOPHIE DUMARESQUE—Exquisite variety having a magnificent tri-color, salmon scarlet flowers; beautiful and attractive healthy green foliage, surrounded with a margin of golden yellow; strong, compact grower.

SCENTED LEAVED VARIETIES

BALM—Large flowers, upper petals light lilac, lower petals dark; large leaves with very strong fragrance.

CAPITATUM—Small cut leaf; rose scented.

CLORINDA—Of splendid, free bold, growing habit; deep-green foliage and an agreeable and refreshing fragrance. Flowers of good size and quite an improvement in that respect; of a bright rose cerise shade; splendid winter bloomer; very free flowering.

DR. LIVINGSTON—This is the so-called skeleton leaved geraniums; leaves freely cut or fern-like; strongly fragrant.

DALE PARK BEAUTY—Pleasing and fragrant foliage; immense flowers, broad lower petals deep lilac, upper petals purplish crimson maroon, feathered dark maroon.

FAIR ELLEN—Large oak-leaved foliage; fragrant and beautiful.

FELICIFOLIUM ODORATUM.—Very attractive on account of its beautiful fern-leaf foliage, both as a plant and when used among flowers; a great favorite.

LADY MARY—Upper petals, rose-lake shaded violet crimson; lower petals bluish white, small flowers, very pleasing odor.

LEMON—Small, glossy green leaves: delicate lemon scented.

MRS. KINGSBURY—Magenta crimson, shading lighter to a white eye; upper petals veined maroon; sweet-scented foliage.

NUTMEG—Nutmeg fragrance: dwarf light green foliage. Introduced 1774.

OAK LEAVED—Leaves somewhat resembling those of an oak tree, dark chocolate center.

PHEASANT'S FOOT—Large foliage.

QUERCIFOLIUM—Oak-leaved foliage, leaf black center, very attractive.

ROSE—The standard rose scented: a favorite since it was introduced.

SCARLET UNIQUE—Excellent habit: full scarlet flowers, blotched with maroon.

SCHOTTESHAMPET—Filbert scented.

TOMENTOSUM—Large, flat woolly foliage, highly scented with peppermint.

FUCHSIAS

Fuchsias are much prized as pot plants for both winter and summer blooming. They are of a hard-wooded nature and can be kept for any number of years, in fact, can almost be grown into small trees. The flowers are bell-shaped, held in graceful sprays. In the summer they should be kept out of the hot sun; are unexcelled for shady porches.

20 cents each.

\$1.50 per doz.

\$8.00 per 100.

A. P. VITAL—Plum color.

BANJADI—Tube and petals rose cerise, corolla dark plum.

BLACK PRINCE—Single. Purple striped with red, red sepals.

BERANGER—Violet purple.

CONVENT—Garden White—White tube, red corolla.

ELM CITY—Calyx of cochineal red, large single corolla of deepest red.

EDMOND ABOUT—Semi-double, white corolla, deep pink petals and tube.

E. REMAN—Pink corolla with white petals.

ELEGANS—Sepals white, corolla clear rose.

FELICIEN DAVID—Sepals red, carmine, corolla plum.

GRAFF WITTE—Red corolla, red sepals.

GERBERT—Curved petals, fiery red. Large double corolla, reddish purple blotched cardinal red.

JEANNE D'ARC—Tube and petals white, corolla rose carmine.

JULIUS LEJEUNE—Plum streaked rose.

J. MORNS—Double rose.

LACEDEMORNE—Large, double white.

FUCHSIAS—Continued

LUCIENNE BREVAL—Sepals red carmine, large corolla.
MARINKE—Red flowered, tall grower.
MINNESOTA—Tuke and petals light pink, corolla violet purple.
MINISTER BOUCHER—Double. Large carmine petals, lilac rose corolla.
MRS. GLADSTONE—Double white corolla, scarlet tube and petals.

NANCY—Dark blue.
PRINCE GEORGE—Double, violet prune-color.
PATRIE—Double white.
SOUV. de H. HENKEL—Metallic bronze, large cinnabar red flowers.
SPECIOSA—Single pink.
WHITE BEAUTY—Light pink sepals, white corolla.

HARDY ENGLISH IVY

A Hardy Evergreen Vine that retains its dark gloss leaves all the year. It is one of the most valuable of all Hardy Vines, extensively used in covering walls, to which it will cling if it has a rough edge to which it can root. It has also become popular for covering graves, holding terraces, etc.

20 cents each. \$1.50 per doz. \$8.00 per 100.

HELIOTROPE

Heliotrope has long been a favorite garden plant on account of the delightful fragrance of the flower, which can be used advantageously with any other flowers lacking fragrance of their own. The finely formed delicate lavender color of the flowers harmonizes with most any other color. The varieties we offer have been selected with great care.

20 cents each. \$1.50 per doz. \$8.00 per 100.

CHIEFTAIN—Lilac, sweet scented.
MME. BRUANT—Very dark purple.
 Large trusses.

MME. de BLONAY—Large trusses, nearly pure white.

LANTANAS

There are few summer flowering plants that give more satisfaction than Lantanas. They can be depended on to bloom regardless of the hot sun and dry weather if given any chance at all. They are becoming quite popular as a bedding plant on account of their bright, showy colors, running through scarlet, yellow, pink and lavender. The Delicatissima, or Weeping, is hard to surpass as a basket or vase plant.

20 cents each. \$1.50 per doz. \$8.00 per 100.

A. CLAVEAN—Primrose pink.
A. COOK—Orange and rose-dwarf; compact grower.
AURORA—Tall, orange and coppery red.
DELICATISSIMA, OR WEEPING—Lilac-lavender; one of the finest basket plants that we have.
E. BAYARD—Bright orange, red and yellow.
CRAIGI—Lemon yellow turning to orange.
HARKETT PERFECTION—Variegated foliage; light pink and yellow.
HELVIA—Pale canary, shading to a deep yellow center.

IOLANDO—Rich orange, shading to a bright red; semi-dwarf.
JUAN D'OR—Bright sulphur, shading to a deep rose pink.
LA PLUIE D'OR—Pure yellow, dwarf grower.
LEO DEX—Open orange scarlet, changes to dark maroon; robust.
LYRE—Pure white with yellow centre; large flowering.
MER JAUNE—A beautiful semi-dwarf variety; bearing in profusion golden yellow blossoms.
ORA—Pure white.

The Dahlias of White Marsh.

Georgous Dahlias that sway and swing,
Dream and Creation and Cuban King;
With a host of blossoms bewildering—
The beautiful ones, I loved them so
In their glowing splendor, row and row.
I loved them so that I called them by name
With their satin petals and hearts of flame.
Eden, white as the shimmering snow;
Golden West, like a sunset glow;
Kalif, warm red as the heart's desire;
Autumn King, like a flame of fire;
Dainty Delice, whose blushes hide
Close to the grandeur of elegant Ide.
I knew that the sun and the sweet, warm rain
Had kissed them over and over again.

I thought, as I gazed, that the soul of these
Was the splendor of all the centuries,
The pageants of kings and the grand array,
That pleasures the morrent and passes away.
For the wind will blow bleak from the distant hills
With the frost that blights and the cold that kills.
The beautiful ones, ah, where will they be
When the Winter snow drifts heavily?

Away with sad thought; a poet has said
That the beauty of earth is never dead;
It lives in thought to gladden the soul
When the form has passed from its perfect whole.
Let's bask in the splendid beauty awhile,
Of wondrous blossoms that bend and smile
A regal, warm welcoming
To the votive hosts, who homage bring
This monarch of Autumn, the Dahlia the King.

By MARIA BRISCOE CROKER.

Whose birthday is it?
Say it with Vincent's Dahlias.

"Say It With Flowers"

In a garden so fair with its fragrance so rare,
I watched the sweet flowers grow:
Thinking of someone, some certain someone
A someone that I love so:
As I wandered along in my garden to-day
I heard each lovely flower say:

Say it with flowers, beautiful flowers
Secrets of love they'll reveal:
Bring her sweet Roses or Violets blue,
Dahlias, Carnations, or Pansies will do.
In gloomy hours, sweet scented flowers
Changes that darkness to light.
So say it with flowers, beautiful flowers
And make someone happy to-night.

When the wedding bells chime and the world
seems to rhyme
And true love is all in bloom
Beautiful flowers from nature's bowers,
Are worn by the bride and groom.
As they journey along life's way,
Each flower they see seems to say:

Say it with flowers, beautiful flowers,
Secrets of love they'll reveal:
Bring her sweet flowers or Violets blue,
Dahlias, Carnations, or Pansies will do.
In gloomy hours, sweet scented flowers
Changes that darkness to light.
So say it with flowers, beautiful flowers
And make someone happy to-night.

**Vincent's Dahlias may be had fresh
every day from Baltimore Florists.**

"Say It With Flowers"

When fortune smiles on busy mart
And you would fain to friends impart
Congratulations from the heart,
 "Say It With Flowers."

"Say It With Flowers"

When you would whisper soft and clear
Words fashioned for a lady's ear
And not for other hearts to hear,
 "Say It With Flowers."

"Say It With Flowers"

Or should that day of joy arise,
The sweet bride sees with tender eyes
The opening of her paradise,
 "Say It With Flowers."

"Say It With Flowers"

When sorrow's dismal tale is said
When all the joys of life are fled,
Words make poor shift to mourn the dead,
 "Say It With Flowers."

R. N. LISTER, *Assinippa, Mass.*
—*Florists' Review*, August, 1920.

**Remember Vincent's Dahlias have a
nation-wide reputation—there's a reason.**

The Buttonhole Bouquet

If you want to put a smile on your face, if you want to get jauntiness in your step, if you want to flout your fate with a devil-may-care, happy-go-lucky, never-a-worry-or-care attitude, put a flower in your buttonhole.

You may be down at the mouth and out at the heel, you may have all the trials and tribulations in the world weighing on your shoulders, your spirits may stand at about forty degrees below zero, and you may be wishing you'd never been born, but try this scheme once—stick a flower in your buttonhole and watch yourself perk and take notice and veer around quick to a livelier, happier frame of mind.

You'll find the posy not only has a rejuvenating, invigorating effect upon yourself, but also upon your friends and acquaintances. Your old pal may have a grouch on and feel like speaking testily to you, but who can speak testily to a man who feels so chipper, so gay and festive and happy as to wear a flower in his buttonhole. How can dreary gloom settle over an office when from the buttonhole of one of the men an impudent, dainty, little flower is singing "This is a merry, merry world, and we all should be mighty glad to be in it."

Put a flower in your buttonhole to-day, almost any old flower will do, even an artificial affair might do in a pinch, and even help the cause along. But get a flower and put it in your buttonhole now and join the ranks of the forward looking, happy-hearted individuals who are heartily glad to be alive.

—Clark, the Florist.

Vincent's Dahlias can be had from
Baltimore's Florists—fresh daily.

"Say It With Flowers"

Do you wish to send a message to your very dearest
friend?

"Say It With Flowers"

Have you congratulations you would dearly love to
send

"Say It With Flowers"

Do you wish to tell your secret to the girl you love
so well?

Remember that old ballad "Daisies never tell,"
Send her roses, or carnations, or canterbury bell.

"Say It With Flowers."

Do you want to send your comfort to a friend who
is sore distressed?

"Say It With Flowers"

Do you want to bid a kind farewell to some friend
who is going West?

"Say It With Flowers"

No matter how backward or bashful you may be,
Just bring your trying story and tell it all to me—
I will point you out a way as you will quickly see:

"Say It With Flowers."

Are there near ones and dear ones waiting just a
word from you?

"Say It With Flowers"

Are you hoping and longing some old friendship to
renew?

"Say It With Flowers"

Don't forget that second Sunday in the month of
spring called May:

Don't forget to think of mother, for you know that's
Mothers' Day.

Don't forget your dear old mother and whatever
you have to say,

"Say It With Flowers."

Say it with Vincent's Dahlias
in Dahlia season.

"PATRICK O'MARA"

PATRICK O'MARA, king of the dahlias,
Regal in splendor of amber and gold,
Flame of the sunset and hues of the dawn-
ing
Blaze in the tints that your rare petals
hold.

Tall and colossal your marvelous blossoms
Tower aloft, o'er all beauties beside,
As if rejoicing in merits and honors,
Richly deserving of praise and of pride.

Loveliest of all the famed dahlias of White
Marsh,
That bring rare delight in the mild au-
tumn hours
To town-weary hosts, who with deep ad-
miration
Pay homage to Fall's gorgeous monarch
of flowers.

MARIA BRISCOE CROKER,
Baltimore, Maryland.

PLANT FLOWERS

What can we do to calm the soul
When forced to pay the price of coal—
When things we need from day to day
All come too high for us to pay?
How may we keep our tempers mild
And through it all be reconciled?

PLANT FLOWERS.

What shall we do 'mid cannon's roar,
When stirred by thoughts of furious war,
With every factory making guns
To shoot the law-defying Huns?
How may we soothe the reeling brain
That threatens soon to go insane?

PLANT FLOWERS.

What may we do to soothe the heart
When our brave soldier boys depart
Of those who reach the other shore—
A few, perhaps, we'll see no more.
What then will bring us thoughts of cheer
And help to dry the glistening tear?

PLANT FLOWERS.

What, then, should men say to do
To peace on earth again renew,
That every nation, weak or strong,
May do its best to down the wrong:
So all mankind their bonds may free
And live in peaceful harmony?

PLANT FLOWERS.

"Say It With Flowers"

THERE are flowers that make us happy,
There are flowers that make us blue:
There are flowers that steal away the teardrop
As the sunshine steals away the dew:
There are flowers that have a tender meaning
That the eyes of love alone may see:
But the flowers that fill my heart with sunshine
Are the Dahlias you sent to me

VINCENT'S Dahlias fill our needs—
Get them fresh daily at
Baltimore Florists

"Say It With Flowers"

IT is better to give this very day,
To a living friend a cheap bouquet,
Than a bushel of Roses, white and red,
To be placed on his coffin when he is dead.

Send VINCENT'S Dahlias—They
brighten the home

The Foremost Dahlia

In competition with the world's best Dahlias at the trial grounds of the American Dahlia Society, season of 1920, at the Connecticut State Agricultural College, the Patrick O'Mara was awarded the highest score. Any grower may equal or exceed this result.

"Its growing, keeping and shipping qualities are excellent. Growers will find its habit, color, etc., something that has been greatly needed. It was the outstanding variety of the 1920 trial gardens both

The Foremost Dahlia

In competition with the world's best Dahlias at the trial grounds of the American Dahlia Society, season of 1920, at the Connecticut State Agricultural College, the Patrick O'Mara was awarded the highest score. Any grower may equal or exceed this result.

"Its growing, keeping and shipping qualities are excellent. Growers will find its habit, color, etc., something that has been greatly needed. It was the outstanding variety of the 1920 trial gardens both as to habit of growth and the way it holds the flowers on the strong stems well above the foliage; a splendid keeping variety." Prof. Geo. W. Fraser, Connecticut Agricultural College, Storrs, Conn.

Chicago, Ill., Oct. 28, 1920.

The box of blooms of Dahlia Patrick O'Mara came safely. Although the box seems to have been in the hands of the express company for something like fifty-six hours the flowers were in remarkably good condition. The firm texture seems to give this novelty, shipping qualities quite exceptional in the Dahlia. The blooms have attracted much favorable comment from visitors to our office.

Yours very truly,

Florists' Review.

More than forty thousand people visited our Dahlia fields in one day last Autumn. Visitors always welcome.

The New Dahlia PATRICK O'MARA

A CREDIT TO THE AMATEUR
A PROFIT TO THE PROFESSIONAL

Much may be said in praise of this new Dahlia. Much has been said as witnessed by—

“The best new variety”—*American Dahlia Society.*

“Its growing, keeping and shipping qualities are excellent. Growers will find its habit, color, etc., something that has been greatly needed.”—*Prof. Geo. W. Fraser (In charge of the Dahlia Trial Grounds, Connecticut State Agricultural College.)*

**The medal from the
Toronto Horticultural
Society in 1920.**

**The one and only gold medal
awarded a Dahlia in 1920 by
the American Dahlia Society.**

**The Certificate of Merit
from the American
Dahlia Society in 1920.**

The flowers are eight inches or more in diameter and borne on long, strong erect stems. They are firmly set at right angles close to the stems. The color is an unusually soft and pleasing shade of orange-buff, slightly tinged with Neyron-rose; a rare Autumn shade that will be in great demand. It is a splendid shipping and a long-keeping Dahlia. None better for commercial use or more pleasing for ornamental gardens.

**Price: \$10.00 per plant.
\$100.00 per doz.**

Tubers will be sent only on orders from far-distant points.

Only a limited supply. Safe delivery guaranteed.

LANTANAS—Continued

PICTAVI—Semi-dwarf; free; a lovely rose-colored umbel, shading to orange in centre.

PROTEE—Old rose and golden yellow.

RADIATION—A grand combination of color, brilliant and red shading.

VIATOR—Large flowers, sulphur yellow, tinged pink.

LEMON VERBENAS

A well-known garden plant, appreciated for the sweet lemon-scented foliage, which is extensively used to impart a sweet scent to bunches of flowers lacking in a scent of their own. It is also used in flavoring jellies.

20 cents each.

\$1.50 per doz.

\$8.00 per 100.

LOBELIA

Splendid bushy little plants, growing about six inches high, with fine foliage. The plant becomes covered with deep indigo-blue wing-shaped flowers, at times almost completely hiding the foliage. Useful for low borders in semi-shady places, or hanging baskets and window boxes, doing best when protected from the hot sun.

CRYSTAL PALACE GEM—\$0.20 cts. each. \$1.50 per doz. \$8.00 per 100

MOONVINES

A quick growing vine, having rich green foliage; one of the best vines that can be had for covering porches, etc. The beautiful, pure, large white flowers when open in the evening produce an effect which almost baffles description. The flowers of *Leari* are a most beautiful blue. They remain open well into the morning.

20 cents each.

\$1.50 per doz.

\$8.00 per 100.

NOCTIFLORA — The standard white Moonvine.

LEARI—(Blue Dawn Flower) Generally known as the Blue Moon Flower.

PETUNIAS

The Petunia has long been a favorite summer flowering plant for the garden or porch boxes. They are continually in bloom from early spring until late Fall. We have for a number of years made a specialty of these and offer a select variety of colors.

20 cents each.

\$1.50 per doz.

\$8.00 per 100.

DOUBLE FRINGED MIXED.

SINGLE FRINGED MIXED.

DOUBLE WHITE FRINGED.

ROSY MORN—Soft carmine pink with white throat. A favorite for basket window boxes, etc.

SAGE

Holt's Mammoth. Broad leaved, strong growing; used extensively for flavoring. This variety is propagated from cuttings; it very seldom seeds.

20 cents each.

\$1.50 per doz.

\$8.00 per 100.

SALVIA

The popular Scarlet Sage, growing from 18 to 30 inches high; covered the entire summer with sprays about five inches long of the highest scarlet, producing a color effect that can be seen as far as the eye can discern; superior as a bedding plant or border for tall growing Cannas, planting in front of a porch, etc.; stands the sun perfectly.

20 cents each. \$1.50 per doz. \$8.00 per 100.

BONFIRE—Dwarf, scarlet.
SPLENDENS—Tall, scarlet.

ZURICH—Dwarf, scarlet.

SENECIO SCANDENS

(*Parlor Ivy*)

Parlor, or German, Ivy, a fast growing vine, with bright green, luxuriant foliage, especially suitable for trellis work, conservatories, hanging baskets or in porch boxes, etc., where the wind does not strike it too hard.

20 cents each. \$1.50 per doz. \$8.00 per 100.

SAXIFRAGA SARMENTOSE

Strawberry Geraniums, a low growing plant, with leaves nearly round, striped freely with silver veins. It is adapted to hanging baskets and boxes; makes one of the most handsome plants imaginable when growing in a basket with the young plants drooping down held only by a thin, wiry stem.

20 cents each. \$1.50 per doz. \$8.00 per 100.

SWANSONIA

Galegifolia Alba. A native of Australia, bearing a profusion of sprays of white flowers resembling Sweet Peas; will bloom all winter, and when the beautiful lace-like foliage can be trained over a window box it produces an effect that is very pleasing.

20 cents each. \$1.50 per doz. \$8.00 per 100.

TRADESCANTIA

The Wandering Jew. A variegated plant of easy and rapid growth, very easily propagated. The plant should have plenty of moisture; usually used in hanging baskets, porch boxes, etc.

RED—Red and green striped.
 20 cents each.

BICOLOR—White and green striped.
 \$1.50 per doz. \$8.00 per 100.

VINCA

Variegated Periwinkle. A beautiful white and green variegated trailing vine, admirably adapted to window boxes, hanging baskets and vases.

20 cents each. \$1.50 per doz. \$8.00 per 100.
